"We come to your home or business"

Topic: How to open a door without touching it with your hands

Hands-Free?

Touch-less?

Anti-microbial?

Automatic?

Wave-to-open?

Door Openers

What options do you have? As public places re-populate, there continues to be an awareness of touching surfaces that may be contaminated. In an abundance of caution, we can offer suggestions and solutions to these situations. Bathroom and other doors can be made safe by the installation of hardware solutions from Bill Partington's AHC Safe & Lock. Call 386-253-9766 for Dyson or Randy today to discuss what solution is best for you. **And Keep washing your hands.**
